Your Money

Sooner or later, whether you SPEND it or HOARD it.

The man you SPEND it with, if he is a real merchant,

will put it in the bank to work for him as soon as it

reaches his hands, and if you HOARD it, some one may take the cash and deposit it in his OWN NAME,

as was told in the papers a day or two ago when a farm-hand employed near Norfolk removed \$4,500

from the owner's chest and distributed it to his own credit in the city. The point is that that money FINALLY reached the bank. Much trouble would have been avoided had it reached there sooner. Kept at home it earned nothing, and the temptation made a criminal. YOUR cash accumulating in the

American National Bank of Richmond, Virginia,

works from the day of your first deposit, compounding at 3 per cent interest, building your own fortune and sharing in the uplift of the general community.
